

DRAGOMIR

ESTATE WINERY

By creating the Dragomir Winery Estate we have realised our dream to reveal the incredible potential of Bulgarian wines – appealing, exciting, with consistent quality over the years.

We produce limited batches, mainly from the Bulgarian varieties Mavrud, Rubin and Dimyat,

and also blends thereof.

We would happily welcome you to our new winery in the village of Brestnik (just 5 km from Plovdiv), where you can join us in turning the tasting into a pleasure to remember!
